Lindsey: This is absolutely a weedier native so caution to those that enjoy tight control in flower beds. That said, it also needs no coddling and pollinators do like its late flowering! European settlers who drank milk from cows that fed on this plant often developed the disease called milk sickness, which reportedly killed Abraham Lincoln's Mother.

Phlox 'Jeana' has been named the 2024 Perennial Plant of the Year by the Perennial Plant Association. Best-performing phlox from the Mt. Cuba trial, excellent powdery mildew resistance and attracted more butterflies than any other garden phlox in the entire trial. This cultivar was discovered growing along the Harpeth River near Nashville, Tennessee and named after its discoverer, Jeana Prewitt.
